DETAILED ACTION

Claim Objections

1. Claim 15 is objected to because of the following informalities: there is a typographical error in claim 15, line 8 "crosslikns". Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 15-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Rhee et al (US 5,752,974).

Rhee discloses a method for treating an aneurysm as claimed. The method includes a balloon catheter (col. 11, lines 34-54) for infusion of a cross-linking solution that cross-links the aneurismal wall (col. 8 line 61 – col. 9 line 9), which contacts, strengths and cross-links the aneurismal wall (col. 5, lines 34-43).

Response to Arguments

4. Applicant's arguments filed February 24, 2004 have been fully considered but they are not persuasive.

Art Unit: 3763

5. In response to applicant's arguments that Rhee does not include the strengthening of the artery, this not found persuasive and directs applicants to col. 5 lines 34-42.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
